

FIRENZECOLOR™ CUSTOM COLOR MATCHING FEES

Custom Color Matching: A fee of \$60 may be charged if we do not have a formula for your requested color. Your order will be placed on a pending status until we verify this for you. Thank you for your patience!

What is the tint charge? Depending on how much tint is needed to create your color, a surcharge will be applied for a light, medium or dark tint. The rate will be applied in proportion to the amount of product being tinted. Firenzecolor™ do not apply tint surcharge to sample sizes (1kg).

Light Tint Charge:
\$20/bucket
(20-25kg/5gallons)

Medium Tint Charge:
\$40/bucket
(20-25kg/5gallons)

Dark Tint Charge:
\$80/bucket
(20-25kg/5gallons)

Here are some examples of what happens with an order that requests a product to be tinted:
